

Facilities

3 melting shops

Electric furnaces - 80 to 200 Tons
 Refining facilities - VOD - VAD - RH
 2 bottom pouring ingot castings
 1 continuous casting - 12m radius - slabs up to 300mm

3 specific Quarto mills

Width from 3,5 m to 4,5 m
 Thickness range from 3 to 950 mm
 On-line forging press for extra-heavy plates, disks, blocks

Finishing facilities

Heat treatment furnaces, including adapted handling tools
 Water and oil quenching
 Flatening - Cutting - Forming - Polishing ...

Every process well adapted to specific products manufactured in each plant

- ▲ 2217 employees on 3 production plants (31.12.07)
 Le Creusot-Chateauneuf (France), Charleroi (Belgium)
- ▲ Turnover 2007 - 1470 M€
- ▲ 37 Worldwide agencies and offices
- ▲ Export : 75% of sales
- ▲ More stringent certifications - ISO 9001...
- ▲ Involved in protection environment - ISO 14001

ArcelorMittal

Formed pieces

EUROFORM : A plant for special applications

Exceptional set of equipments

- 12000 Tons press
- 1200 Tons press
- Large capacity furnaces
- Water quenching tank
- Finishing equipments

Wide range of formed products :

- ▲ Pressed heads
- ▲ Hot/Cold formed pieces
- ▲ Large cones and half-shells
- ▲ Pressed pieces in complex shapes

Research and Assistance

1 Research Center (CRMC), Located in Le Creusot

- Fracture mechanic
- Welding
- Corrosion resistance
- Hydrogen
- Cracks investigation

- Customers' fabrication assistance
- New products Development
- Material selection guides

2 Subsidiaries

UF ACIER

- ▲ As subcontractor for prefabrication
- ▲ Specific cuttings (laser, plasma), bevellings

Cockerill Forges & Ringmill (CFR)

- ▲ Circular rolling mill
- ▲ High competences in Heat treatments, non destructive controls
